

SUMMUS

Summus Ai Vi

Eye drops with vitamins and amino acids against eye fatigue and cloudy vision.
Sold without prescription.

Indications for use:

- Eye fatigue during continuous periods of pressure (working on the computer, reading, watching TV, etc.)
- Inflammation caused by contact with water during swimming or with dust, sweat getting into the eye.
- Eyeball inflammation caused by contact with ultraviolet or other rays («snow blindness», etc.)
- Blepharitis (eyelid inflammation)
- Discomfort when using contact lenses
- Itching
- Foggy vision (caused by excess rheum and other factors)

Usage:

Put 1 to 3 drops in each eye, not more than 3 to 6 times a day. Drops are suitable for every day usage.

Contains:

- Vitamin B12 (Cyanocobalamin) improves eye accommodative ability, relieves fatigue. This product is colored red due to vitamin B12.
- Vitamin B6 (Pyridoxine hydrochloride) stimulates metabolism in eye tissues.
- Vitamin E (Tocopherol acetate) improves peripheral circulation, stimulates the supply of nutrients to eye tissues.
- Potassium and magnesium L-aspartate provides eye tissues with the necessary nutrients: magnesium and potassium. These two minerals play important part in the cells and tissue health. They are very important for keeping blood vessels healthy and functioning.
- Chondroitin sulfate sodium keeps moisture in eye cornea, prevents from dryness.
- Chlorpheniramine maleate soothes itching symptoms. One of the strongest antihistamines (antiallergic agents).

Points for storage and usage:

- Eye drops are intended to be used individually. Do not use them together with other people.
- Children should use the drops only under their parents supervision.
- Keep the bottle tip from touching eyelids and eyelashes.
- Do not use the drops if they got muddy and there is residue at the bottom of the bottle.
- Do not use the drops while wearing soft contact lenses. Remove the lenses, use the product and then put the lenses on in 15 minutes after instilling.
- Keep the drops tightly closed, in a cool place protected from direct sunlight and away from children and pets.
- Do not pour the drops into any other container, it can result in misuse or alter the product properties.
- Do not use the product after expiration date. After unpacking, use it as quickly as possible before expiration date.
- Depending on storage condition, the product components may crystallize on the bottle tip or on the cap. In this case, carefully remove the solidified particles using clean fabric cloth.

Consult the specialist before using the product.
