

SUMMUS

Summus Cleansing oil

Cleansing oil for deep purifying of skin and make-up removal

Usage

For maximum effect it is essential to apply the cleansing oil on dry skin with dry clean hands.

Take enough oil (2-3 presses of the pump) and spread it between palms.

Apply the oil on dry facial skin with massaging movements, paying special attention to the area around the eyes and the T-zone.

Cleansing oil can be used to remove make-up from the eyes and lips, including long-wearing cosmetics.

If the film-type mascara is hard to remove, you can emulsify the oil with a small amount of water beforehand.

Wash off cosmetics from your hands with warm water, and continue massaging the skin with wet fingers. When contacting with water, the oil transforms into an emulsion, and its cleansing properties will be intensified.

Wash oil residue and impurities off the face with warm water.

Then you can continue washing with foam. If you have dry and dehydrated skin, it will be enough to wipe your skin with lotion.
