

SUMMUS

Professional Hair Care

How to use

1. Apply a small amount of the shampoo on wet hair, massage into the scalp with fingertips.
Please note that a sulphate-free shampoo foams less compared to common shampoos.
2. Wash your hair bringing it to the front over your shoulder, spreading the foam from hair roots to ends. If your hair is short, wash it slightly tipping head backwards.
3. Rinse the shampoo away. Repeat if necessary.
4. Apply the treatment to wet hair and spread it thoroughly from roots to tips.
5. Rinse the treatment away with warm or lukewarm water.
Be sure not to use hot water. Time permitting, you may leave the treatment on your hair to work for 3-5 minutes, then rinse.
