

Relax Pro Cleansing Mask

A 3D cleansing face mask with detox effect for the luminous skin

How to use

Thoroughly remove makeup from your skin using Summus micellar water or your usual makeup remover. Use the mask instead of washing your face with foam during evening skincare routine.

After using the mask, rinse off the remaining serum with warm water and apply lotion, serum and (or) cream onto your face.

For the maximum effect it is recommended to use the mask 2-3 times a week.

1. Take the mask out of the pack and unfold it by pulling the special protruding flaps in the upper part of the mask.

2. Holding the edges of the fabric base, put the mask on your face, making sure it fits tightly.

3. Remove the fabric base in 10-15 minutes and massage your face with light movements, distributing leftover serum on the skin.

4. Wash your face with warm water, apply lotion and your usual skincare product.
